VOL. 32, NO. 47

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA.

FRIDAY, MAY 20, 1927

California Ranch News

County Horticultural Commissioner L. O. Haupt of Kings County, says that present indications are that Kings County apricots and peaches will be about half a crop this season, prunes, normal, and it is too early to say what the grape crop will be.

California farmers are being advised to burn all possible wild growth about their cultivated areas, this spring, as a means of killing off millions of aphid families, now feeding on wild growth, before they migrate to the cultivated crops.

Grain prospects are excellent in the big Tulare Lake section. All irrigated grain and that sown early is looking fine, but the late sown and that on high land has been feeling the effects of the unusually hot weather of late April. The grain is holding its own very well and prospects for a big grain harvest still continue excellent.

The Kadota fig growers of the Terra Bella section, after a number of meetings, are reported to have decided to pool their product. It is said that one packing company is offering 7 1/2 cents a pound delivered, which is the same price as was paid last year. The fig growers are seriously considering an affiliation with the State Fig Association.

Tulare County's 39,966 acres of oranges, lemons and grapefruit is undergoing a boost in acreage this season, according to Frank R. Brann, county horticultural commissioner. Good prices in the citrus field have induced an increase in citrus planting noticeable in the Lindsay and Ivanhoe districts, northern and southern Tulare County regions.

Plans for immediate construction of a seven-story, class A hotel in Merced, have been announced by P. C. Denison and F. S. Gardner of San Francisco. The new structure will occupy a lot 150 by 100 feet and will have 250 rooms. The project involves a total expenditure of \$550,000, and it is expected, it will be completed within four months.

The cats of Kern County are facing a food problem, for, according to Joseph Keyes of the United States Biological Survey, an undiagnosed disease has killed off large numbers of mice in the county. This factor, together with the remedial measures employed by residents of Kern County have resulted in practically a 100 per cent kill, it is reported.

Modoc County sheepmen say that prospects in that county never looked better than at the present time. In spite of a rather backward, cold spring, the lamb crop is unusually large and most of the lambs have been contracted for late summer and early fall delivery at a price of 10 to 10 1/2 cents per pound, which will bring the price to an average of around \$8 per head.

A new disease of cherries has appeared in Solano County, which the growers have called Buckskin Disease. The cherries, instead of ripening, assume a leathery texture and a rather yellow color. The trees usually die after two or three years. Investigated by the College of Agriculture of the University of California, no cause could be found for the trouble, but it is planned to make a further study of the disease this summer.

The biggest experimental orchard ever planted for the testing of rootstocks in relation to trees, has been completed at the University Farm, at Davis. The planting consists of 3000 trees, which include all the known rootstocks, budded with the trees commonly used upon them. Information on breakage, unions, growth, resistance to disease, etc., will be gathered from this orchard for the use of the fruit growers of the state.

Black end rot of pears, a disease that has caused trouble in nearly every pear district of the State, has been found mainly in orchards where pears were planted on Japanese roots, according to the College of Agriculture of the University of California. To overcome this trouble, recommendations are made that French seedlings be inched into the trees, thus putting the pears on new roots. For large trees four seedlings are used, giving the orchards the appearance of being planted with "five legged trees".

Golden State News of Interest to All

Construction of a four-story, \$125,000 addition to Hotel El Tejon, Bakersfield, will start immediately.

Probably the largest assemblage of pioneers that has ever gathered in the San Joaquin valley took place at Hanford on May 6, celebrating the fiftieth anniversary of that city.

The fishing season for all of Yosemite's lakes and streams opened May 1. This year fishermen can catch the same limit inside the park as permitted by the State of California.

By a vote of 148 to 59, nearly three to one, the citizens of Truckee have decided to form a public utility district for the purpose of owning and operating their own power system.

The formal opening of the newly remodeled Hotel Land in Sacramento will be held June 15th, when a \$200,000 improvement program on the building will be practically completed.

Dentists from throughout the West will be in San Francisco May 23 and 24 to attend the twenty-ninth annual convention of the College of Physicians and Surgeons Alumni Association.

Dedication of the Delta King and Delta Queen, million-dollar passenger boats for the run between Sacramento and San Francisco on the Sacramento River, was held in Stockton this week.

Sacramento will be the official headquarters of the California Federation of Women's Clubs for the next two years, Mrs. W. W. Green, president-elect of the federation, has announced.

The University of California observed its sixty-fourth commencement May 11 in the California Memorial Stadium, when 2220 degrees and certificates were bestowed by President W. W. Campbell.

The Pittsburg Board of High School Trustees has approved plans for a \$225,000 high school. Bids will be opened on May 20. A site of almost twenty acres was recently acquired by the district.

Consumption of gasoline in California during the first three months of the current year increased more than 9 per cent over the same period of last year, resulting in an increase of nearly \$390,000 in tax collected and available for expenditure on California highways, according to figures just released for the first quarter by the state board of equalization.

Sixteen-year-old Jean McKinley will play the title role in "La Primavera," ninth annual Los Gatos pageant, to be produced at Los Gatos, June 24 and 25. B. Ignacio Ortega, descendant of Jose Ortega, who founded Monterey, is the author of this play. It was written especially for production in the outdoor theater maintained for pageant presentation.

More than 1000 boys and girls, arranged in groups at different times, have already enrolled for the summer camp at Whitaker forest, the University of California redwood grove on the mountains northeast of Visalia. The summer camps will be conducted for Farm Bureau Club members and work of building the camp is now in progress. Five San Joaquin valley counties are participating.

A huge cross, reputed to have been erected by the Ku Klux Klan, was set afire in the hills west of Martinez one night last week and attracted wide attention. An excited youth, believing a transformer on a power pole was afire, turned in a fire alarm. Another cross was erected at Bay Point and that was set afire, and it was reported that crosses were also erected and fired in other sections of Contra Costa county.

Modesto High School's band has won first honors in a state-wide high school band competition at San Francisco last week. Competing against seventeen other crack high school bands of California, the Modesto band of sixty-three pieces won the right to represent California in a national high school band contest at Kansas City late this month. In Kansas City, the Modesto band will be pitted against crack bands from the other states.

Announcing plans to co-operate in all forest conservation movements, but more particularly to establish local timber fire patrols in the northwestern counties, the California Forest Guards, Eureka association, has filed articles of incorporation with Secretary of State Frank C. Jordan.

Home coming day for Mariposa County will be celebrated on May 30th, according to a resolution adopted by the Mariposa County Chamber of Commerce, sponsors of the movement. The exercises will be held in the County Courthouse which was built in 1852 and is one of California's most notable landmarks.

EMMA LAIRD CALLED TO REWARD

One of Santa Clara County's aged pioneers, Mrs. Emma Grunwell Laird, passed to her reward Monday night, May 16, and funeral services were held yesterday from the funeral home of Nuttman and Pacheco, Santa Clara. Rev. J. J. Pardee of Campbell officiated and interment was in Santa Clara Cemetery.

Mrs. Laird was born in Quincy, Ill., and came to California with her parents, Rev. and Mrs. Jacob Grunwell, by oxcart, in the very early days. They settled at Stockton and later moved to Santa Clara.

In 1857 she was married to Joseph A. Laird, whose death occurred some years ago and for several years Mrs. Laird has made her home here with her grand daughter, Mrs. L. J. Carboni. Mr. Laird was the son of Fielding Laird first town trustee of Santa Clara when it was incorporated.

She is survived by Mrs. Eustace R. Parsons of Placentia, Mrs. J. F. Randolph of San Jose, Miss Helah Laird of Campbell and grandmother of Mrs. Viola Carboni of Campbell and Imo Randolph of San Jose.

Although she had reached the advanced age of eighty-eight and a half years, "grannie" as she was known to her neighbors and members of the Pundita Circle, had always been very bright and alert, entering into social activities and having a cheerful interested outlook upon life.

The job of painting the world's largest highway bridge is nearing completion. Carquinez bridge—mighty span of steel and concrete flung across the turbulent neck of San Francisco Bay at its northern extremity—is undergoing its bath of battle-gray paint. Perched on scaffolding and clinging to guide ropes, 350 feet above the water, the brush welders are "doing their stuff." It will require 90 tons of paint to cover the entire structure. This is the largest bridge painting job in the history of the West and is the largest single painting job on record in California. Every inch of the giant structure is being covered with three coats of weather-proof, specially prepared paint. One gallon of paint covers four tons of steel and this means that 90 tons of paint are required for the entire job.

How he battled his way to within 501 feet of the ice-clad summit of Mount Whitney without spikes and on short provisions was related by Hank Weber, San Rafael musher, who now is recovering from physical hardships suffered in his dash up the peak. After five unsuccessful attempts to be the first man to climb the highest mountain in the United States, Weber was ready to depart from Lone Pine with his team of airdale dogs for return to his home in Marin county. Weber is said to have gained a greater altitude on the mountain in its winter garb than perhaps any other man.

Miss Alice M. Reading of Anderson, daughter of Major P. B. Reading, recently discovered among the papers left by her father the original treaty of peace made at Reading's ranch, on Fort Reading, on August 16, 1851, and entered into by the chiefs of all the tribes in this part of the state. This treaty assigned to the Indians all the land on the east side of the Sacramento River from the mouth of Ash Creek, at Balls Ferry, up that stream twenty-five miles and thence north to Pitt River.

The Federal Land Bank of Berkeley reports that during the month of April, 1927, it paid the total of \$758,300 to farm loan applicants in the district covering California, Utah, Nevada, and Arizona. Two hundred and twenty-six applications for loans were received, covering the total of \$1,513,900. The number of loans allowed were 149. This made the gross number of loans allowed since organization of the bank in 1917 total 16,386, representing in cash \$61,634,900.

California, long known as the world's fruit and vegetable basket, apparently has fame as the home of another product—pedigreed pigeons. For the state department of agriculture has been appealed to by a large Japanese importer for help in securing a shipment of highclass birds from California. Practically all varieties of pigeons are desired by the importer. The department will furnish information to pigeon breeders who request it.

PICNIC TOMORROW

JIM ALLEN ELECTED AT SEBASTOPOL

At at meeting of the board of trustees of the Sebastopol grammar school held this week, James Allen, principal, was re-elected to that position for the coming year, by a unanimous vote of the trustees.

Mr. Allen was named principal of the Sebastopol school the first of the year to fill the vacancy caused by the resignation of O. F. Station, who resigned to assume the duties of the County Superintendent of Schools office.

Mr. Allen is an educator considerably experienced, and since his residence in Sebastopol has formed a wide friendship with those with whom he has come in contact. His selection to the principalship for the coming year will meet with general approval.

Mr. Allen was vice-principal of the Campbell Union Grammar School during Mr. Cuthbertson's administration, and was very popular with the pupils and townspeople. He and his family have spent the past two summers here, as well.

BE A CAMP FIRE DAD!

The two high school Camp Fire groups are planning a supper for their dads to be given Thursday night, May 19. All the girls are working to make the supper a grand success. Special committees have been appointed to see about program and the eats. The supper will be held in the high school sewing room. A large number are expected to be present.

Daddies and daughters will get acquainted with other daddies and daughters and all will enjoy themselves.—Polly Maxon.

SENIOR SNEAK

The Seniors of the high school held their annual sneak day Tuesday. They were more successful in making it a sneak day than the preceding senior classes have been.

The members of the class met at the school a little after 5:00 a. m. and arrived at Big Basin in time for breakfast. Most of the forenoon was spent in hiking around Big Basin. The beach at Santa Cruz was the site chosen for a picnic lunch. After lunch everyone visited the concessions at the Casino and many enjoyed a swim in the plunge or the surf or both. The class and the faculty advisor, Mr. Wegel, arrived in Campbell shortly after 9:30. All agreed that the day had been one that they wouldn't forget.

—Esther Lynden.

Resolutions

The following testimonial of regard has been passed by the Campbell Library Association through its Board of Directors in memory of the late President of the Association, John F. Duncan whereas, our beloved brother John F. Duncan, has passed from this world's activities in which he bore so noble a part.

And, whereas we, for many years his fellow workers for the Campbell Library, will greatly miss his clear thinking and his ready helpfulness in our work.

Therefore, be it resolved: That we, the Campbell Library Association hereby record our sense of loss in this bereavement, and that we extend to his sorrowing family our sincere sympathy.

(Signed) The Campbell Library Association. May 12th, 1927.

The largest precast sewer pipe on the Pacific Coast is being laid in Sacramento as the first unit in the "million-dollar" sewer line authorized at the bond election last Summer. The line is being constructed on the ground, in sections weighing twelve tons each. The sections are nine feet in diameter and will be lowered in place with a crane. The sections are constructed with "slip joints" so that they may be joined and sealed with cement.

MRS. HIGBIE SPEAKS AT CLUB

The Country Woman's Club enjoyed another delightful program Monday afternoon, the committee in charge being Mrs. F. V. Perrott, chairman, Mrs. E. R. Kennedy, Mrs. G. W. Page and Mrs. E. R. Smith.

The program was opened with two beautiful solos, "Call Me Back" and "May Morning," by Mrs. Herbert Shadle.

Mrs. Lillian Voge read an interesting paper written by her mother, Mrs. E. R. Smith on "The Present Situation in China" and some very interesting excerpts from a letter written by her brother, Harold, who is in a university in that country.

The Committee had invited Mrs. Jane Higbie to give a talk on her recent trip to England and France, where she went as international representative of the Soroptomist Clubs.

She gave some very interesting personal touches and also explained briefly the great changes that the women are making in the business world, the high class women who have been forced into business are lending it a dignity and raising it to a plane never before thought of.

In France too, the war upheaval opened the doors to women in lines never believed possible.

She had on display some of the beautiful Persian and Indian prints, the beautiful chintzes and other new drapery materials. The Committee the other members of which were Mrs. E. R. Kennedy and Mrs. G. W. Page served punch and wafers at the conclusion.

The meeting of June 6 will be the annual picnic, notices of time and place will be given later.

RENO MARTIN DROWNS IN PLUNGE

Mr. and Mrs. T. H. Martin have the sincere sympathy of the entire community in the loss of their small son, Reno, who was drowned Sunday in the Vendome plunge.

The parents left their two older boys, Murray, aged 11 and Reno, 10, at the plunge while they with the two youngest called at the Alum Rock Sanitarium. Having been assured of the boy's safety by those in charge they decided to visit a patient at the sanitarium in the meantime, but their call was terminated by a telephone message stating the tragic news.

Shortly before closing time Murray observed a dark object on the bottom of the pool and dove down to see what it was. Finding a body he called the life guard who brought it up but every effort at resuscitation failed.

Funeral services were held Tuesday afternoon from Hocking and Williams parlors and the body laid to rest in the Oak Hill cemetery.

KIWANIS HEARS SAM TOMPKINS

A very interesting and enjoyable luncheon was held by the Kiwanis Club Wednesday.

Pres. Cutting spoke of the opening of Carquinez bridge and the all Kiwanis night assembly to be held June 6.

Geo. Burrows, chairman of the day spoke of the plan to send prunes from the valley to the flood sufferers.

Attorney S. G. Thompson of San Jose spoke most interestingly on "Chance and Opportunity" and the part each played in notable events of world history.

Elsie Merrill and Helen Stray were the Campfire servers. Next week a picture will be given in conjunction with a lecture.

The Directors voted to send \$50 to the Flood victims relief fund.

Committees are busy planning the program and eats for the attendance contest feed to which the ladies are to be invited.

PICNIC TOMORROW

BAZAAR PROGRAM MUCH ENJOYED

The ladies of the Pundita Circle had prepared a most attractive bazaar in the Community Hall last Friday but probably, due to the excessive heat the attendance was very small.

It was a great disappointment as the Club depends upon its annual bazaar to replenish the Charity fund.

The hall was almost transformed into a garden with lovely flowers and trailing rose vines, and the several booths were well supplied with attractive things, both for use and adornment.

A delightful program was provided in addition. The two Hal-amick girls, Joan, nine years of age and Jeanne, eight, gave an entertainment in itself. Joan played two violin numbers, "Scene de Czardas" (Hungarian) Hubay, and "Liebesfreud," Kreisler.

Jeanne sang "Roses" by Openshaw, and a group of comiques. Their third number was three ensembles, one from "Rosemarie," the "Student Prince of Meidellberg," and "My Rosary," the latter by request.

The children were accompanied by their mother, Mrs. Camille Halamick, and those who had braved the weather were amply repaid by that part of the program alone.

But there were two other pleasing events. Miss Annie Schulte read "Her First Club Meeting," and "The Coward" by Walter Ben Hare, both of which were heartily enjoyed.

A little skit "That Blond Woman" was given by members of the club and elicited well merited praise.

The characters were: Mrs. Eleanor Ellis—Mrs. L. J. Carboni. Esther—her sister—Miss A. Schulte. Mrs. Parker—Miss Helah Laird. Mrs. Phelps—Mrs. M. E. Purmort. Mrs. Ryan—Mrs. Laura Allen. Jane—Mrs. J. J. Pardee.

P T A Minstrel Most Entertaining

The Ladies of Los Gatos P. T. A. assisted by about a dozen ladies of both P. T. A. societies of Campbell gave a very entertaining Minstrel show at Campbell as a benefit performance for the club concerned.

The music was furnished by the Grammar School band.

The end-men were Mesdames Lemon, Smith, Wilcox, Zilmer, Davenport, Stocker, Schivers and Miss Ruby Howes, whose jokes were many and funny.

Mrs. Paul Alexander—Interlocutor. Mrs. Jas. Crawford, Floor Manager.

Solists—Mrs. Tom Capaci—O Sole Mio. Mrs. R. T. Duncan—(Hard boiled Tuscan)

Mighty-Lak-a-Rose The Lilac Tree. Mrs. Ethel Ricketts (Topsy pigeon Toe)

I Love you Truly. Miss Marian Jenkin. My Lady's Bower and Pick-a-ninny Sandman.

Pianist—Mrs. Ford. Monologues by Miss Ruby Howes.

Dances by Winsome Smith. Cake Walk—Cake won by Mrs. A. L. Zilmer and Mrs. R. Davenport.

NOTICE

Those who wish to attend the picnic tomorrow sponsored by the Sunday Schools of the Methodist and Congregational Churches and have no means of transportation will be at the Methodist Church at 8:30 Saturday morning where the busses will start. Coffee and punch will be served. Those attending bring basket lunch and cups. It is hoped that this will be made a community picnic with a large attendance.

JAPAN PLANS ROADS

The Japanese government has under consideration a ten year road building program according to reports received by the California State Automobile Association.

PASS ON STRAIGHTAWAY

When tempted to pass another car on a curve or on a hill, suggests the California State Automobile Association, remember there are always plenty of straight stretches on every road.

SPRING LUBRICATION

Frequent washing of your car means that lubrication of springs must be given greater attention, points out the California State Automobile Association, as they receive more water during a washing than during a drive in the rain.

Racing the engine of your car while idle is a ruinous practice, according to the free emergency road service of the California State Automobile Association. Do not race the engine by opening the throttle suddenly and do not leave it racing when car is standing and motor is running idle.

TO ALL HOLDERS OF SECOND LIBERTY LOAN BONDS

NOTICE OF REDEMPTION

All outstanding Second Liberty Loan 4 per cent bonds of 1927-42 (Second 4's) and all outstanding Second Liberty Loan 4 1/2 per cent bonds of 1927-42 (Second 4 1/2's) are called for redemption on November 15, 1927, pursuant to the terms of their issue. Interest on all Second 4's and Second 4 1/2's will cease on said redemption date, November 15, 1927. Holders of Second 4's and Second 4 1/2's will be entitled to have the bonds redeemed and paid at par on November 15, 1927. Such holders may, however, in advance of November 15, 1927, be offered the privilege of exchanging all or part of their bonds for other interest-bearing obligations of the United States. Holders who desire to avail themselves of the exchange privilege, if and when announced, should request their bank or trust company to notify them when information regarding the exchange offering is received. Further information may be obtained from any Federal Reserve Bank or branch, or from the Commissioner of the Public Debt, Treasury Department, Washington.

A. W. MELLON,
Secretary of the Treasury.

Washington, May 9, 1927.

Californians seem to have developed a great love of lamb. One of the most noticeable features of this fine year for the sheep men of the San Joaquin Valley is that the shipment of lambs east was smaller than for some years, most of the crop being consumed in this State. While heretofore about half the production of lambs was shipped East, this year very little went out, evidencing more appreciation by Californians of the delicious lamb chops and roasts produced on the west plains of the San Joaquin valley.

A gain of 24.9 per cent in number of freight cars loaded at Stockton in April over the number loaded during the same month last year is taken as indicative of prosperous agricultural and business conditions in the San Joaquin Valley.

Over 80 per cent acreage increase in Los Angeles County is reported by the Japanese Berry Growers' Association, the present total of plantings amounting to 1600 acres as against 900 acres last year. It is estimated that the berry crop should exceed \$2,000,000 in value for 1927.

At a test of the milk supply of Napa, made by officials of the bureau of dairy control of the state department of agriculture, it was found that the milk supplied to the people of this city is 95.7 pure. This is 2.8 better than the tests made by the same officials six months ago.

In an effort to repulse a great army of European elm beetles said by state agricultural officials to be headed for the capital city, Boy Scouts of the Sacramento council have organized themselves into minute men.

Plans are being completed for the Mountain View Union High School district for a reinforced concrete gymnasium building. It is to be erected adjacent to the Mountain View High School, at Mountain View, Santa Clara County, at a cost of about \$80,000.

Forty-three aliens numbering one of the largest deportation parties to leave the Pacific Coast this year, are en route to El Paso and Galveston, Texas, from where they will be sent into Mexico and to European countries. The party included ten insane aliens from the State hospital at Patton, Cal.

It's a funny old world. You can catch more voters with campaign promises before election than you can with good performances afterward.

IS PHYSICAL EDUCATION IMPORTANT?

Thirty-three States have physical education laws, but they are faced with the problem of how to build their programs to the end that every boy and girl between the ages of six and eighteen years will enjoy and benefit by a broad physical and health education program.

Last year Tampa, Florida, won the distinction of receiving the highest number of merit badges for physical fitness among its school children, according to a survey made by the Playground and Recreation Association of America, a non-profit organization sponsored by many of America's philanthropic citizens.

The association reports that a certain city of one hundred thousand population, concerned over the increasing amount of crime, bribery and vice, took steps to clean up. A campaign was organized which resulted in the city's voting a tax levy of \$22,000 a year for directed play and wholesome recreation. Moved by this interest, a prominent citizen of that city gave \$200,000 outright for immediate improvement of parks and playgrounds.

It is surprising to note from that report that last year in more than seventeen hundred cities and towns in America 17,000 workers were employed and nearly twenty million dollars spent "in defense of the idea that joy is a holy as pain," and that the "right use of leisure or off-work hours makes life healthier, happier, more triumphant and full of vigor; serves to express the human spirit; helps to prevent juvenile crime and accidents; strengthens the ties of home, school, church and community and thus builds character and citizenship."

PLANT A TREE AND SAVE A FLOOD

How many of us planted a tree last year or will plant one this year? Taking the country as a whole, probably not one person in a thousand contributed actively toward reforesting the land which is fast being depleted of plant and vegetable life. But in one week the country raised \$10,000,000.00 toward relief for the flood sufferers. This was a worthy cause, but few of those contributors have given as much as one dollar toward replanting the watersheds in order to prevent floods.

We hear of more floods and tornado destruction in this century than was heard of in the last. Why? Because we are depleting the natural growths, we are committing an abortion against plant and tree life by failing to replant and conserve for the generations to come as well as for the present.

The country of Russia is a poor example of government as we know it, but in the matter of reforestation Russia is a step ahead of us. There is a law in Russia that for every tree cut down there must be a tree planted. We can't replace human life, but we can replace the forests, the shade trees, the shrubbery on farm and town lot that means much in the processes of nature, and therefore great benefit to the economic life of the nation. By acting now we will reap the benefit in our own span of life.

LEARNING FROM OTHER TOWNS

Modern methods of standardization have attempted to destroy individuality, but there is one kind of "standardization" that we ought to welcome, namely, the efficiency of research and learning to profit by the experience of others. If a man is to be successful he must of necessity profit by the failures and successes of other men.

It is the same with communities. Campbell can not claim originality of all of its improvements. It's people, from time to time, have taken ideas from other communities, and have incorporated so much of the good as applied to our needs and have tried to reject the errors. By this Campbell grows. Some other community likewise gets suggestions from us. And the beauty about this form of standardization is that it costs nothing for the service. Ideals are free if you follow them, and quite expensive if you don't. There is no copyright on progress.

Get busy! It's only a short time now until that vacation!

The Hague-Thomas post of the American Legion at Grass Valley launched plans for the erection of a memorial to the Nevada county soldiers who lost their lives in the war. The assistance of the supervisors is to be sought. It is planned to include an auditorium to seat 1,000 people and also to provide 100 rooms for the legion members.

The automobile death toll in California during the last year was 1,623, an increase of 139 over the previous twelve months, according to final compilations made public by L. E. Ross, director of the State Bureau of Vital Statistics. The number of fatalities resulting from motor vehicle accidents has been steadily mounting in the last two years.

An old oxen yoke, used by the father of Mrs. Clara Miller of Hammon on when he first came to California in 1829, is to be given to the Marysville Parlor of Native Sons and will be placed in the old historic Wells Fargo office building at Timbuctoo along with other pioneer relics. The Native Daughters aided in the restoration of this old landmark, which stands on the Tahoe-Ukiah State Highway in the Yuba foothills, once a rich mining section. For a long time the old yoke was the property of Charles Wilbur of Sutter county, who died last November and who before passing, promised to give it to the Native Sons as a memento of early days.

The Value of Checks

About ninety-five per cent of the nation's business is transacted by checks; if it were not for this system of expediting commercial affairs the money supply of the country would have to be vastly increased. The use of checks provides many advantages that are obvious to every one of business experience. The American Trust Company offers exceptional facilities to men and women that carry their checking accounts in this bank.

HEAD OFFICE SAN FRANCISCO

Twelve students of the College of Agriculture received degrees of bachelor of science at the commencement exercises at the University of California, at Berkeley, last Wednesday. Thirty nondegree students have also been given diplomas for the completion of two years' work on the Davis farm. Those who received their sheepskins are: Richard G. Baines of Oakland, George H. Bath of Santa Rosa, William J. Beard of Upland, Elliot E. Brown of Oakland, Charles J. Burr of Glendale, Earle D. Davis of Caruthers, Maurice O. Doyle of Dixon, Miss Caro Godley of Napa, Herbert Livers of Escondido, Ralph H. Moss of Dixon and Thomas Whitaker of Monrovia.

Confronted with the problem of marketing the biggest cantaloupe crop in the history of Imperial Valley, growers representing two-thirds of the 37,000 acres planted to melons have agreed to assume a voluntary assessment of 20 cents an acre for inspection costs. It was stated that the Supervisors will contribute an equal amount from county funds. Growers and shippers agreed that the shipment of green or poorly flavored melons would have a demoralizing effect on the market and with a crop of from 15,000 to 20,000 cars to be sold, it is considered especially important that rigid inspection be enforced.

That drainage pumps have materially aided in lowering the water level in the Turlock irrigation district is evidenced from the fact that the water table has been lowered since 1918 from within four feet of the surface over 60,000 acres, representing approximately one-third of the district, to an average depth of five and three-quarters feet. The district is now operating sixty-five drainage pumps. Petitions have been presented the district board by farmers in the vicinity of four of the sixty-five pumps, asking that operation be discontinued and allow the water to raise sufficiently to sub-irrigate their land.

With puncture vine again making its appearance in eastern Contra Costa County, the Diablo Valley Chamber of Commerce has appealed to its members in a half dozen towns and farming districts to make a determined fight for eradication. During 1926 fifty-one infestations were noted in eastern Contra Costa County, and these localities are being watched closely for resumption of growth. As a means of aiding farmers in familiarizing themselves with the appearance of the vine, an exhibit has been prepared at the Chamber of Commerce rooms at Brentwood showing the plant in its various stages of growth.

Fifteen hundred carloads of Valencia oranges bringing an estimated total of \$2,000,000 to the community will be shipped out of Lindsay this Spring. Over eight hundred cars have gone out to date on both roads and it is estimated that there are about 700 more to go. This Spring's crop of Valencia is one of the best for some time and is expected to run considerably ahead of last year when 1,260 cars went out. Not only is the yield heavier this year but the prices range somewhat higher than last season. The net price to the grower is estimated at \$2.25 per box as against \$2 per box last spring.

Our forefathers paddled their own canoes, but we moderns have to have motors attached.

You can't always give a bargain when dealing in human nature.

CERTIFICATE OF DOING BUSINESS UNDER A FICTITIOUS NAME.

THIS IS TO CERTIFY That the undersigned are engaged in and transacting business in the Town of Campbell, County of Santa Clara, State of California, under a fictitious name, to wit: CAMPBELL LUMBER COMPANY.

That the undersigned are the only persons interested in said business and are the sole owners thereof, and their names and places of residence are as follows:

WALLACE THEODORE MORTON, Palace Hotel, San Francisco, California.
HEROLD W. MORTON, Campbell Avenue, Campbell, California.

IN WITNESS WHEREOF, The undersigned have hereunto set their hands this 12th day of April, 1927.

WALLACE THEODORE MORTON,
HEROLD W. MORTON,
STATE OF CALIFORNIA,
COUNTY OF SANTA CLARA.) ss

On this 12th day of April, 1927, before me, L. D. BOHNETT, a Notary Public in and for the County of Santa Clara, State of California, residing therein, duly commissioned and sworn, personally appeared WALLACE THEODORE MORTON and HEROLD W. MORTON, known to me to be the same persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my Official Seal at my office in the said County of Santa Clara, the day and year in this Certificate first above written.

L. D. BOHNETT,

Notary Public in and for the County of Santa Clara, State of California.

Odd Fellows Hall, Campbell. Full Gospel services every Saturday at 8 p. m. Branch of Upper Room Mission, Fourth and San Antonio Streets, San Jose. The young people of the Mission will have charge of the meeting Saturday May 21. We extend a hearty welcome to all. Come.

that great, wicked city, which has rightly been called "A university of crime for the native." My sister, Mrs. Bridgman and Ruth, and Mr. and Mrs. Catlin, are all there to give Isaac a guiding hand. Through the help of Miss Weir and Ruth, Isaac has just been offered a position in the packing house of a large firm in Johannesburg, with a Christian man in charge. Isaac will earn five pounds a month and have Sundays free for preaching. Ruth's letter telling of this offer, came last eve. When I told Isaac he caught his breath, and exclaimed "Oh Jesus! To think what He has done for me. First He saved me, then He brought me here, and now this! Tell me, Nkosikazi, how can I thank Him?" Dear Lad! Nobody knows better than we do, of all the pit falls which will surround him as he goes from us, and there are plenty enough right here. But Isaac is God's own and we will have faith to believe that the temptor will never snatch away this consecrated boy.

—Amy B. Cowles.

NOTICE OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN THAT default having been made in the payment of principal and interest on the promissory note secured by that certain deed of trust executed by George H. Thatcher and Estelle B. Thatcher, his wife, as trustees, to Georgia M. Lawrence as beneficiary, and H. S. Bridges, as trustee, dated February 16, 1924, and recorded in the office of the County Recorder of Santa Clara, State of California, on the 16th day of February, 1924, in Volume 71 of official Records, page 105, et seq.,

And the said Georgia M. Lawrence having, by instrument in writing, duly recorded on the 21st day of March, 1927, in the office of the County Recorder of the County of Santa Clara, State of California, duly substituted C. C. Cottrell as sole trustee under said deed of trust in the place and stead of said H. S. Bridges, the original trustee named therein;

And the said Georgia M. Lawrence having on the 9th day of December, 1926, caused to be recorded in the office of the County Recorder of the County of Santa Clara, State of California, a notice of such default and of his election to cause the property described in said Deed of Trust to be sold to satisfy said promissory note, as required by Section 2924 of the Civil Code of the State of California; and

More than three (3) months having elapsed since the recording of said notice of default and of election to sell under trust deed, and application in writing having been made to the undersigned, as substituted trustee under said deed of trust by said beneficiary, the owner and holder of said note and deed of trust securing the same, that said undersigned sell the premises by said deed of trust conveyed and hereinafter described, as by said deed of trust provided;

Now, therefore, the undersigned trustee will on Friday, the 6th day of May, A. D. 1927, at the hour of nine thirty (9:30) o'clock A. M. of said day, at the front door of the County Court House of Santa Clara County in the City of San Jose, County of Santa Clara, State of California, in pursuance of the provisions of said deed of trust, sell at public auction, to the highest bidder for cash in lawful money of the United States, the land and premises situated in the Town of Campbell, County of Santa Clara, State of California, and described as follows, to-wit:

Lot numbered fifteen (15) as shown on that certain map entitled "Map of the Strom Subdivision in Town of Campbell" which said map is recorded in the office of the County Recorder of the County of Santa Clara, State of California in Liber "O" of Maps, page 12, records of said County.

Dated April 14th, 1927.

C. C. COTTRELL, Trustee.

Summons

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SANTA CLARA

DORA HOEFT HUGEE, Plaintiff vs. THEODORE W. HUGEE, Defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

THE PEOPLE OF THE STATE OF CALIFORNIA send greetings to THEODORE W. HUGEE, Defendant.

You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this Summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 22nd day of March, A. D. 1927.

(Seal) HENRY A. PFISTER, Clerk
By R. K. O'Neil, Deputy Clerk.

Orchardists in various sections of Napa County have reported that their trees are sour sapping. A careful check has been made by farm bureau officials on six different plantings in the county and it was found that the mortality of trees due to sour sap and gummosis was quite heavy on old vineyard land, while trees planted on entirely new ground did not show any of this trouble. The explanation given for this condition is that vines in particular must give off some toxic substance in the soil that weakens the vitality of the new trees, causing them to succumb to sour sap.

A Petaluma hatchery company, one of the world's biggest suppliers of baby chicks, has been interviewing chicken men of the Dixon district, S. J. County, with a view to extensively buying eggs here for hatching in their big plant at Petaluma. The representatives say that the peak of egg production is reached several weeks earlier in the Dixon section than at Petaluma. The premium over the market price paid for eggs for hatching runs as high as 12 cents a dozen. Eggs for hatching must be fertilized and be laid by good flocks of well culled hens.

Electric Cookery is Better Cookery

The Scientific Way to Cook

There is as much science in cooking as there is in manufacturing. If you are an experienced cook you have it "down to a science." Even so you may have a failure occasionally. And if you are a novice at cooking your failures are more frequent.

Every owner of an Automatic Electric Range is a scientific cook. You prepare the dinner, place it in the oven, set the controls for time and temperature as specified in any modern cook book. Your meal will be a success the first time and every time. Guesswork is eliminated.

Come in and let us tell you about the Many other advantages of the Electric Range.
